Summary

Driven and meticulous Full stack (MERN) Developer with a keen eye for detail and a passion for creating sophisticated web application.

Skills

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Front end:** ReactJS, React Router, Redux, Context API, Tailwind, CSS Modules, API Integration
- **Backend:** NodeJS, ExpressJs, MongoDB, Mongoose, REST APIs, Middlewares, Authentication
- **Tools:** Firebase, VS Code, Cursor, Git, GitHub, Figma, Chrome DevTools, Postman, AWS

Work Experience

Web Developer - Younedia

Nov 2024 - Apr 2025

- Developed and maintained reusable React components, reducing code redundancy by **30%** and improving development efficiency.
- Optimized state management and rendering strategies, reducing unnecessary re-renders by **35%** and improving app responsiveness.
- Enhanced UI/UX with smooth animations, accessibility features, and intuitive navigation, increasing user engagement by **25%**.

Projects

HIRELYZE - MERN Stack Based HR Dashboard [Link](#)

Feb - March 2025

- Developed a full-stack **HR Dashboard** using the **MERN** stack with **JWT**-based authentication, **auto-logout**, and robust **form validations** for login/registration.
- Built **Candidate** and **Employee** modules enabling HR to **create**, **edit**, **delete** profiles, assign roles, transfer candidates to employees, and download resumes.
- Designed and developed dedicated **Attendance** and **Leave Management** sections where HR can track attendance, **create/approve** leave requests
- Implemented **responsive UI** using **vanilla CSS** based on **Figma designs** and **deployed** the app on **Vercel**, following clean folder structure, reusable components, and efficient state management

NEOFLIX - AI powered Movie Recommendation System [Link](#)

Sept - Oct 2024

- Developed **GPT-powered** movie recommendation app using React, Llama AI API, and TMDB API, featuring dynamic movie search, personalized suggestions, and multi-language support.
- Designed a **Netflix-inspired UI** with Tailwind CSS, ensuring responsive, intuitive, and visually appealing UI/UX across all devices.
- Integrated **Firebase Authentication** for secure sign-up/login and form validation, leveraging **Redux** for efficient global state management and seamless UX.
- Conducted thorough **Testing** using **Jest** for unit, integration and tested 90% of the app components.

Education

B.Tech (CSE), Chandigarh University

2020 - 2024

Achievements

- Programming Foundations in **Web Development** certification from Coursera.
- Elevated, intuitive, and minimalistic designs **for startups and small businesses** to help them
